

# QUALITY POLICY

The primary objectives of CROCCO Quality Policy are as follows:

- Increasing its share of the flexible packaging market by providing its customers with a wide range of products with the best blend of quality, service, and price, in such way guaranteeing adequate economic return.
- Guaranteeing customer satisfaction through the supply of products presenting the specifications agreed, with respect for any and all regulations applicable by adopting good production practices in order to prevent and monitor the risks of contamination of all materials intended to come into contact with foodstuffs.
- Ensuring precision and speed in production and supply by means of a process under constant control.
- Constantly improving the company quality system.
- Maintaining high standards of technology and product in alignment with market needs and expectations.

Every single member of the CROCCO team must demonstrate:

- DEDICATION
- RESPONSIBILITY
- COMPETENCY
- VERSATILITY
- CREATIVITY
- PARTICIPATION

All those who work with us must be committed to achieving the Quality Policy objectives posed every year.
